## Facilities in Library

For

### Self-Study Course in library

We believe that the College library is the gateway to knowledge, provides a basic condition for lifelong learning, independent decision-making, and academic development of the students and the faculty. Focusing upon this very important role, our college Library has been growing steadily over the years.

Student are Reading in Library

Reading Room in Library

BMCE College library with number of facilities spanning over an area of 500sq.ft. The library is situated on the ground floor of the college building. Library services are computerized. Complete catalogue of the library holdings has been created by using MICM, Integrated Library Management Software. Online Public Access Catalogue (OPAC) is provided to the users.

### **Books Section in library**

Two separate computer terminals are provided one for counting footfalls in the library and another for students for accessing availability of books in the library. Students are using the OPAC extensively for searching the required books and journal articles. On an average 200 books per day are circulated to the readers from Home lending section, Reading Hall, and reference section of the library. The students extensively use Library Reading Hall and around 150 students are availing this facility.

### **Computer in Library for Students Use**

The college has a very good collection of books including textbooks, reference books, periodicals, and journals. The total number of books at present is 10,000 and the college subscribes to 20 journals and newspapers. The library is open from 9.30 a.m. to 4.30 p.m. on all working days. The different subject sections are well-displayed, and every student is encouraged to make the best use of the library and reading room. The library is equipped with internet facility. The library has an internet leased line with the speed of 10 MBPS. Cleanliness and maintenance of the library is always given top priority.

## Facilities in Computer lab

For

### Self-Study Course

As the lab facilities are concerned, our college is having a sophisticated computer lab with all the facilities. We have as many computers as the students needed. There is a separate lab facility for B.Ed. students. The computers are having all the software needed for the study purpose. It helps the students to get the idea of software development and to get familiar with various programming languages.

Mentor mentoring to Students how to use Computer

Computer labs are networked with high speed Internet. These facilities aid all the necessities of the students as well as the growing technological trends. We have an excellent Computer Lab with more than 25 latest Computer Systems. Separate Computer Labs are arranged for B.Ed. students. The college campus is Wi-Fi enabled with access to all the resources that the University provides centrally.

Computers with internet connection are available both for students and teachers in the library, staff room and computer labs. The college library and the computer laboratories have access to advance web activity with its subscription to E-resources through DU Network that links students and faculty researchers to the databases needed for research. The machines and programmes are continuously upgraded to ensure the market relevance of acquired skills.
