

Cleaning is important for the health and safety. Maintaining a clean college environment sets a good example to students. It encourages learners to take pride in their university or college, which makes them less likely to drop litter and as such they will potentially make a bigger effort to maintain their environment.

The green campus concept offers an institution the opportunity to take the lead in redefining its environmental culture and developing new paradigms by creating sustainable solutions to environmental, social and economic needs of the mankind. To increase the green cover in and around the campus.

A Green Campus is a place where environmentally friendly practices and education combine to promote sustainable and eco-friendly practices on the campus. The green campus concept offers an institution the opportunity to take the lead in redefining its environmental culture and developing new paradigms by creating sustainable solutions to the environmental, social, and economic needs of mankind.

Campus has been made completely Green.

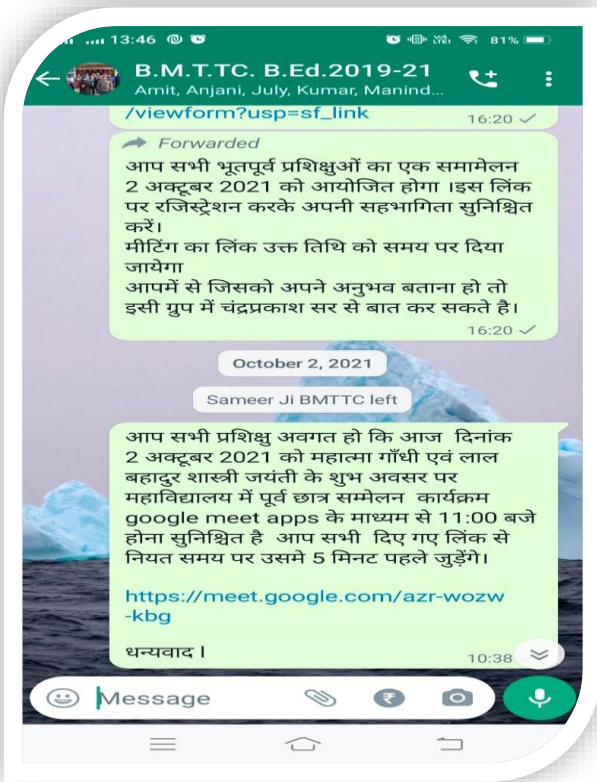

The College has Planted various types of tree for green and healthy environment.

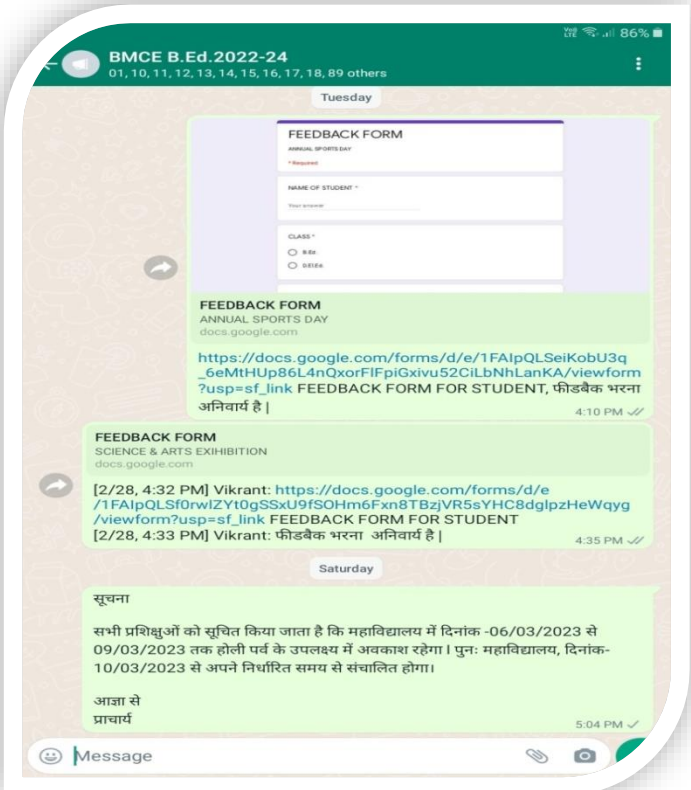

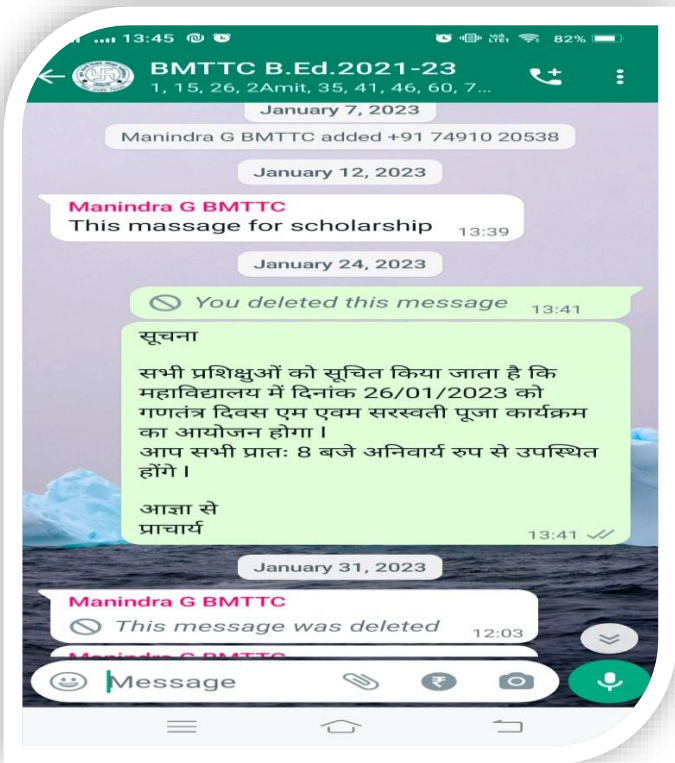

way of college Building & Campus fully Friedly environment and green campus.

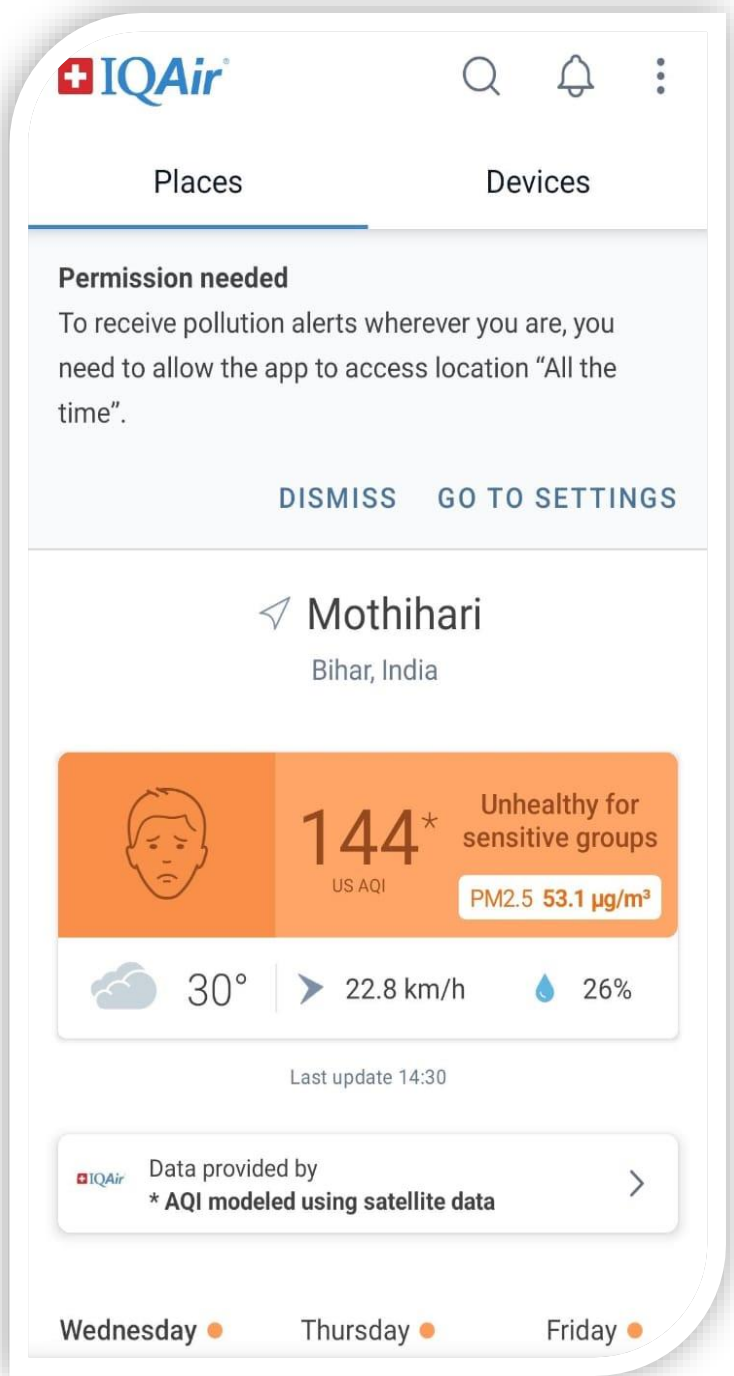

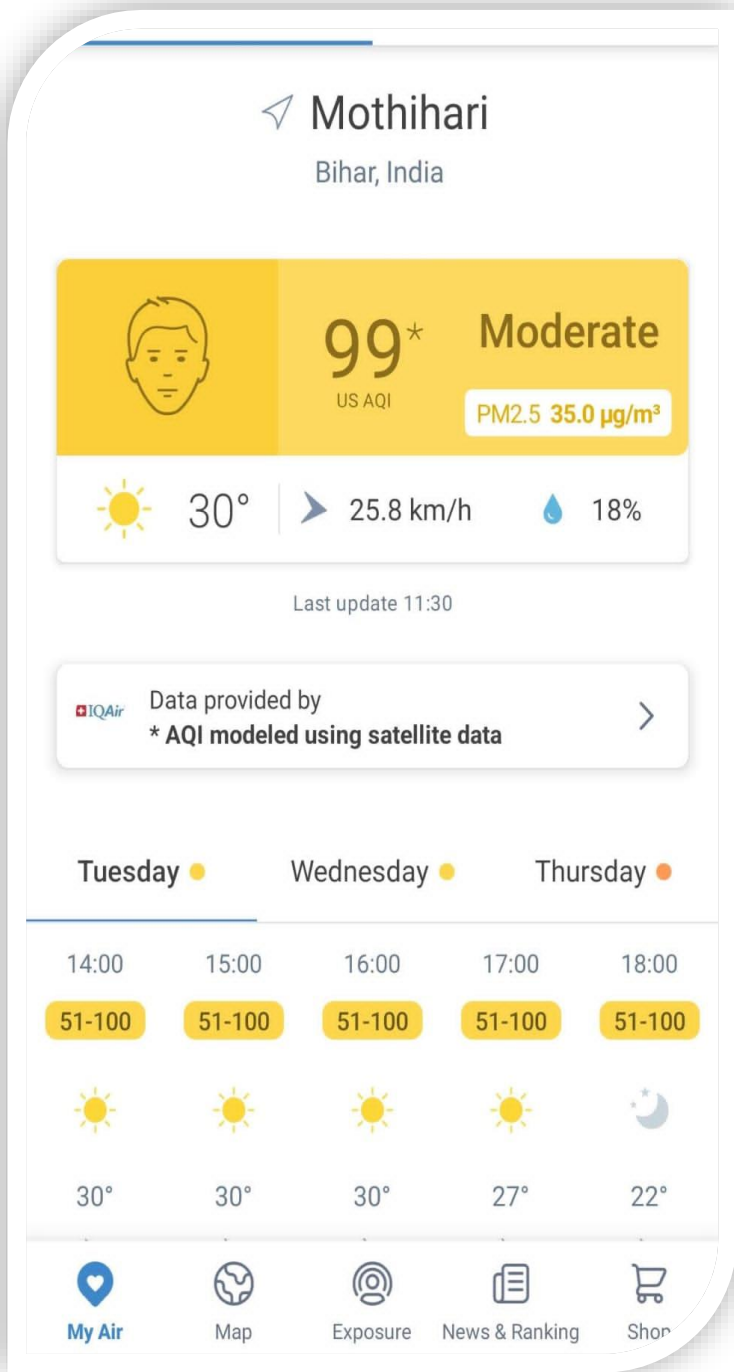

To promote an eco-friendly environment. To maintain cleanliness and hygiene. To adopt effective cost-saving methods. The aim of the practice is to create awareness about various environmental issues and their Implications.

College circulate Notice on WhatsApp for student & Reducing paper uses.

every sheet of paper we save means fewer trees being cut down, which helps combat deforestation. Additionally, paper production involves significant amounts of water, energy, and chemicals. Reducing paper usage can minimize the negative impact on our ecosystems and reduce pollution.

Air pollution, whether indoors or outdoors, is associated with a number of human health effects, including heart attacks, asthma attacks, bronchitis, hospital and emergency room visits, work and college days lost, restricted activity days, respiratory symptoms, and premature mortality.
